PROFILE

Product Designer with over 11 years of experience in UX/UI, product design and design systems. I combine user research and usage data with clear user flows, prototypes and a solid understanding of APIs and data flows. I bring structure to complex situations and translate customer needs and business requirements into clear digital solutions. I work closely with business teams, product and engineering, and see solutions through to implementation.

CORE SKILLS

UX/UI & Interaction Design · UX Research & Usability Testing · User Flows, Wireframes & Prototyping · Information Architecture · Customer Journey Mapping · Usage Data & KPI Analysis · Design Systems & Design Tokens · Collaboration with Business Teams & Engineering · Accessibility · AI Tools

CURRENTLY

Further Education and Volunteering, Basel | October 2025 – present

- Volunteer German teacher for migrant women, GGG Benevol (since January 2026)
- **CAS Applied GenAI & Human-AI Interaction**, FHNW Brugg-Windisch (enrolled, starting February 2027)

PROFESSIONAL EXPERIENCE

5/2022 – 10/2025 Product & UX/UI Designer | MDPI | Basel
Freelance work on the design system since 2020

- Facilitated workshops and training for Product, Engineering, Data/AI and business teams; co-built the UX & Research team (four people) and coached designers across international teams.
- Conceived and optimised complex, API-based platforms with over 55 million monthly users — from user research, usage data and usability testing to user flows, prototypes and implementation support with Product and Engineering.
- Translated technical requirements, data models and user needs into clear interfaces and simplified workflows.

Projects & Results

- **MDPI Books:** Redesign of the publishing platform, 2023 – 2024. Tripled traffic and reduced homepage drop-off from 83% to 22% within six months, based on seven user interviews.
- **MDPI User Hub:** UX research into declining usage of Susy despite a good NPS, 2025. Analysis of 11.3 million visits and seven interviews; six behavioural patterns; role-based dashboard concept as the foundation for User Hub.
- **SciProfiles / Scilit:** Concept for a research platform with over 1.1 million users, based on personas, customer journeys and A/B tests, 2024.
- **Design System:** Figma component library and design tokens, 2020 – 2024. Unified eight initiatives across 17 locations; component specs for engineering; reviewed implementation against spec.

11/2017 – 5/2022 Self-Employed: Graphic Design, Art Direction & Product Design | Amsterdam and London

- UX/UI, websites, visual identities and design systems for international clients; independent client acquisition and account management.
- Freelance work for MDPI from 2020, followed by a permanent position in May 2022.
- Selected projects: Shanghai Biennale 2018 with thonik (identity and catalogue), financial publications for G.A. Brand Design (incl. American Express Centurion), campaign material for Victoria Beckham (New York Fashion Week).

9/2016 – 11/2017 Junior Designer UX/UI & Brand Identity | SPIN | London

- Developed production-ready UI specs and reusable components, and contributed to UX/UI and identity projects for the Samsung Fashion & Design Fund.
- Selected projects: BBC Creative (identity), Saatchi Gallery (identity, signage and catalogue), and in-house publisher Unit Editions (various books, incl. Universal Everything and Letraset).

8/2015 – 1/2016 Information Design Intern | YAAY | Basel

- Developed information and signage design for the City of Zurich.

EDUCATION & FURTHER TRAINING

2024 – 2025:	**CAS Usability & User Experience**, FHNW Olten
2016:	**Werkplaats Typografie**, Summer Residency at ISIA Urbino
2013 – 2015:	**Bachelor of Arts in Visual Communication**, FHNW HGK Basel
2012 – 2013:	**Vocational Baccalaureate in Design**, AGS Basel
2011 – 2012:	**Foundation Course in Design**, Basel
2005 – 2009:	**Commercial Diploma**, WMS KVBL Reinach
